CLEAR ALIGNERS

Q: What are Reveal™ Clear Aligners?

A: Reveal™ Clear Aligners are an affordable, discreet way to straighten your teeth. The Reveal™ trays are noticeably clear and are guaranteed not to discolor, cloud, or yellow over the course of treatment. Reveal™ features a smooth and scalloped edge to maximize comfort. Plus, Reveal™ was designed to provide a truly intimate fit for tooth movement, with fewer attachments making it a more aesthetic solution.

Q: Will Reveal™ Clear Aligners be noticeable on my teeth?

A: Reveal™ Aligners are practically invisible and stay clear throughout treatment – no yellowing or staining. With Reveal™, you wear each tray for two weeks, and they are guaranteed to stay clear for the entire two weeks.

Q: Does Reveal™ Clear Aligners require attachments?

A: Reveal is designed to reduce the need for attachments so you can offer a truly aesthetic treatment and achieve clinical efficiencies.

Q: Are Reveal™ Clear Aligners comfortable?

A: Reveal™ Clear Aligners have a smooth and scalloped edge that is designed to maximize your comfort. Reveal™ Aligners fit tightly, so you may feel some pressure. This is normal and necessary to move your teeth. If you experience significant discomfort, please contact your dentist immediately.

Q: Are Reveal™ Clear Aligners affordable?

A: We understand you have more options than ever for straightening your teeth. Reveal™ aims to provide you with a discreet, cost-effective, and safe treatment performed under the guidance of your trusted dentist.

Q: What are Reveal™ Clear Aligners made of?

A: Reveal™ Aligners are made of clear plastic. The material is ridged and provides a snug fit, which controls the movement of your teeth.

Q: How many hours a day do I need to wear Reveal™ Clear Aligners?

A: Reveal™ Clear Aligners must be worn all day and night for at least 22 hours. The only time you take the trays out is while eating, brushing, or flossing.

Q: Can I eat or drink while wearing Reveal™ Clear Aligners?

A: You cannot eat while wearing Reveal™ Clear Aligners, but you can drink (hot liquids should be avoided).

Q: Are Reveal™ Clear Aligners right for me?

A: Reveal™ Clear Aligners are for people who do not require adjustments to their bite. Your dentist will provide you with a comprehensive oral exam to confirm candidacy for Reveal™ Clear Aligners.

Q: How are Reveal™ Clear Aligners different from other clear aligners?

A: Reveal™ Clear Aligners are practically invisible, and they stay clear throughout treatment with normal use – no yellowing or staining. With Reveal™, you wear each tray for two weeks, and it will stay clear for the entire two weeks. Most dentist-provided aligner systems require attachments or “buttons” that are glued to your teeth. Reveal™ does not require attachments, making it a more aesthetic solution.

Q: What is the process for getting Reveal™ Clear Aligners?

A: The process for getting Reveal™ Clear Aligners is simple. First you will get photos and impressions taken of your teeth, which your dentist will send to a lab. The lab will create your custom-designed aligner trays and send them to your dentist when ready. You will then visit your dentist to receive your Reveal™ kit. You will continue to visit your dentist periodically over the course of treatment to ensure your case is moving properly and for your dentist to check on your progress.
